

We are honored that you chose to participate in this important program. In order to assure the highest possible integrity for the program and to insure optimal patient safety, participants/instructors are required to complete and return the following forms before the beginning of the course.

For a patient treatment course, all participants/instructors who will be involved in actual patient treatment must supply certain documentation prior to start of course:

- Copy of current license
- Copy of current CPR license

ALL participants/instructors must complete two required items that pertain to HIPAA before the course. We have included 2 web links below and a description of what they are.
