

The Executive Practice Management™ Program for Dentists
“Bridging the Knowledge Gap from Clinical Dentist to Entrepreneurial Owner”
A 13 Module Comprehensive Online Business Course

Office of Continuing Dental Education
College of Dentistry, University of Florida

WELCOME!

This online course prepares dentists to become entrepreneurial business owners and executive managers within the dental practice. The curriculum for this 13 module program focuses on the critical components of business ownership not taught within traditional dental education (DMD/DDS) programs.

COURSE DESCRIPTION:

The Executive Practice Management™ Program for Dentists is a comprehensive academic program that bridges the knowledge gap from "clinical dentist" to "entrepreneurial business owner."

This course includes an extensive 13 module program with an online web course “eCommunity,” that is solely customized to dental practice management for entrepreneurial ownership. With the goal of increasing dentists’ business acumen, leadership and communication skills, this innovative program teaches dentists the critical aspects of finance, operations and HR management. From buying (acquisition), building (start-up) or becoming an associate, to debt reduction through overhead control, and wealth accumulation for practice transitions; this program encompasses a business school curriculum customized to executive dental practice ownership.

Topics are divided into 13 modules with each module taught online each month. Instructional methods include digital lecture, hands-on digital workshops, and online supplemental learning between monthly modules. Dentists are proactively involved in the learning process and development of applicable projects/ deliverables that can be implemented into the dental practice immediately. Concepts of basic accounting/bookkeeping, practice financials, employment law, social marketing, staffing, sales forecasting, dental leadership, communications, legal compliance, and wealth accumulation serve as primary content for this course.

COURSE GOAL:

The goal of this program is to develop dentists’ entrepreneurial business skills and mindset, which should enable them to increase practice efficiencies and focus on serving patients’ needs with an increased quality of life. Dental practices that are soundly managed by knowledgeable dental entrepreneurial business men and women are better positioned for financial growth and sustainability. Thus, allowing the provider to focus on delivery of more affordable, efficient, high quality care for their patients, with an increased profit maximization strategy.

COURSE OBJECTIVES:

Upon completion of this course, the successful students will be able to:

- Define and understand the dental career opportunities and legal ownership types available to dentists.
- Analyze and quantify the major costs and processes associated with building, buying or renovating a dental practice.
- Develop an action plan for their targeted career leadership path and goals.
- Create plans for business, staffing, marketing analysis, and sales forecasting; and create employee, clinical and operating manuals.
- Develop skills to analyze and control practice overhead, debt and equity.
- Define and summarize their entrepreneurial leadership role, personality style and communication skills as a practice owner and employer.
- Build a team that reflects and shares the practice's Strategic Intent; mission, vision and goals.
- Formulate and evaluate practice financial documents through the use of practice financial data and bookkeeping software.
- Manage and track key practice trends, expenses, and overhead percentages as they relate to industry benchmarks.
- Develop an expanded understanding of insurance plans, contracting, billing, coding, and the appeals process.
- Identify, integrate and manage the requirements for federal, state and local compliance with employment laws, OSHA, HIPAA, HITECH, Omnibus, SDS, GHS and Worker's Compensation.
- Gain an understanding of the legal requirements of dentists as employers and human resource managers.
- Expand their understanding of the relationship between sound business practices and their impact on practice profitability.
- Create a personal financial plan for wealth accumulation and retirement.
- Establish a path towards retirement and the practice transitions process.

COURSE PREREQUISITES:

Applicants must be practicing, actively-licensed dentists (nationally or internationally), or newly graduated dentists, or graduating dentists in an accredited dental program, to be considered as candidates for acceptance into the Executive Practice Management™ Program. **Applicants may not be affiliated with any dental, or dental-related schools, nor any practice management organizations, or programs, nor consultants, or lecturers, of any kind.

COURSE CREDITS:

This course is 182 credit hours towards the Practice Management biennium requirements, and includes 14 contact hours for each of the 13 Modules. 182 CEU, participation

Course Fee:

\$16,087.00* Payment of fees may be handled in one of two ways**: The full tuition may be paid in advance, or a non-refundable deposit of \$500 is due within 2 weeks of acceptance of the application into the Program plus the first module payment of \$1,199.00 is due two weeks after deposit due date, followed by twelve interest-free consecutive monthly payments of \$1,199.00 each. If the Program is completed in lesser time, then each module payment is due 2 weeks prior each module taken.

*The tuition, expenses, books, materials, laptop and educational expenses associated with this Program, may be tax deductible; dentists are encouraged to speak to their accountants.

**Please contact us for information on other financial options and longer term financing.

THIS PROGRAM IS AN APPROVED PROGRAM FOR THE U.S. GI BILL, FOR MILITARY DENTISTS.

The University of Florida encourages participation in its educational programs by qualified persons of all sexes from all cultural, racial, religious, and ethnic groups.

The University of Florida is an Equal Employment Opportunity/Affirmative Action institution and does not discriminate against persons because of race, national origin, religion or creed, sex, age, or handicap.

While every effort is made to provide accurate and current information, the University of Florida College of Dentistry reserves the right to change without notice, statements in this document concerning rules, policies, fees, curriculum, or other matters.

A Message from the CE Assistant Dean

The University of Florida College of Dentistry is working hard to be your trusted resource for continuing dental education. Therefore, we are proud to offer the internationally renowned Executive Practice Management™ Program for Dentists. This unprecedented 13-module Executive Program is designed to bridge the knowledge gap from clinical dentist to entrepreneurial business owner.

A common concern we hear from many prior alumni is that they wish they had learned more about the business aspects of dentistry. While clinical skills are important to develop a successful practice, knowledge of small business principles is equally important.

Our job, then, as your partner in professional development and life-long learning, is to provide you with the total package you need to make your practice as successful as it can be. The Executive Practice Management™

Program for Dentists attempts to fill a void many of you have identified by bridging the knowledge and skill gap between the dentist as clinician and the dentist as business owner.

If we are successful in serving the dental community in this way, then we will have been successful in advancing our mission of excellence through innovative education, research and service.

Sincerely,

A handwritten signature in black ink that reads "James E. Haddix D.M.D." The signature is written in a cursive, slightly slanted style.

James E. Haddix, D.M.D.
Assistant Dean for Continuing Education

ADA C.E.R.P.® | Continuing Education
Recognition Program

University of Florida is an ADA CERP Recognized Provider. [ADA CERP](http://www.ada.org/goto/cerp) is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. University of Florida designates each activity for the listed credit hours of continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/goto/cerp.

Dental educational institutions have an obligation to disseminate new knowledge related to dental practice. In so doing, some presentations may include controversial materials or commercial references. Sponsorship of a dental continuing education course by the University of Florida does not necessarily imply endorsement of a particular philosophy, procedure or product by this institution. Continuing education courses do not necessarily reflect the philosophies of the University of Florida pre-doctoral or post-doctoral training programs.

BASIS FOR SUCCESSFUL COMPLETION OF THE COURSE:

Achievement of the final certificate of completion will consist of the timely and successful online attendance and completion of activities, assessments, evaluations, and each module's deliverables within the assigned time frame. Due dates are listed within the course documents and schedule, within the web course. Virtual online attendance at all 13 modules is required. Each monthly Module is listed below.

Module 1 Topic: Dental Leadership and Personality Styles™

Curriculum Focus:

- Discussing the importance of dentists as entrepreneurial leaders versus managers
- Introducing various organizational and leadership theories
- Identifying various personality styles, traits, and their impact on dental practice leadership
- Assessing personality types through Myers-Briggs testing
- Reviewing strategies for enhancing entrepreneurial leadership

Individual Assignments:

- Developing a Leadership Self-Analysis and Plan
- Incorporating the MBTI Personality Profile into the Leadership Plan

Module 2 Topic: Dental Communication and Team Building™

Curriculum Focus:

- Identifying the communication models and theories for entrepreneurs
- Illustrating barriers to successful communication
- Correlating communication skills with productivity and team building
- Identifying strategies to interview, hire, and build a motivated team
- Communication skills for managing patients and staff
- Enhancing communication skills through role playing and oral presentations
- Identifying communication skills needed for conducting performance evaluations, conflict resolution sessions, and improvement plans
- Assessing team building activities and incentive programs
- Evaluating key aspects of successful teams

Individual Assignments:

- Digital presentations and Role Playing activities
- Developing an action plan for team building
- Completing a Communication Self-Analysis and Plan

Module 3 Topic: Build, Buy or Become an Associate/Employee™

Curriculum Focus:

- Presenting the different types of career opportunities for dentists
- Defining the different types of practice ownership options, models, and their associated tax benefits vs. liability exposure
- Illustrating and comparing the differences between being an Associate Independent Contractor vs. Associate Employee status
- Discussing the process and components of financing a practice purchase, renovation, or start-up
- Estimating major costs and expenses associated with a practice purchase, renovation, or start-up

Individual Assignments:

- Written goal setting for future career choice
- Planning and estimating either a 1. Purchase, 2. Renovation, or 3. Start-Up/New Build
- Building and populating a Decision Matrix in Excel
- Final Project to encompass the above three assignments

Module 4 Topic: Business Plan 101™

Curriculum Focus:

- Identifying the purpose and use of a Business Plan
- Presenting the different spreadsheets used in a Business Plan
- Illustrating the evidence-based origins of the spreadsheet's content
- Reviewing the different sections of a thorough dental Business Plan

Individual Assignments:

- Completing the worksheets needed for the spreadsheets
- Populating the spreadsheets into the dental Business Plan
- Completing the written sections of the dental Business Plan
- Incorporating both spreadsheets and written sections into the final dental Business Plan

Module 5 Topic: HR & Staffing Your Practice™

Curriculum Focus:

- Evaluating HR (Human Resources) and the staffing needs for different practices
- Estimating cost of staff positions, salaries, benefits, and compensation packages
- Presenting various dental staffing job descriptions, functions, duties, and responsibilities
- Viewing and conducting a current market analysis for staff positions

Individual Assignments:

- Clarifying needed staff positions, functions, and responsibilities
- Estimating the cost of the defined staff compensation package
- Developing documented job descriptions and ads
- Creating a Practice Staffing Plan encompassing all components from the above assignments

Module 6 Topic: Practice Financials and QuickBooks™

Curriculum Focus:

- Operating QuickBooks financial Software
- Presenting basic bookkeeping and accounting concepts
- Introducing and reviewing the purpose of financial statements
- Illustrating the tracking of accounts payable and receivables, payroll, production, and collections
- Interpreting a practice's financial data and financial statements

Individual Assignments:

- Setting up a dental practice in Quickbooks financial software
- Posting financial data for a practice's revenue and expenses
- Creating, analyzing and reporting on the correlated Financial Statements

Module 7 Topic: Operational Overhead and Insurance™

Curriculum Focus:

- Analyzing operational costs through software tracking tools
- Determining the percentages and ratios needed for financial viability and growth
- Presenting and tracking practice overhead using MS Office tools and practice software
- Correlating overhead control with increased profitability and practice equity
- Illustrating the impact of overhead control on debt reduction

- Evaluating the dental insurance contracting process and options
- Analyzing fee and reimbursement structures
- Understanding the components of successful dental insurance coding, billing, and appeals processes
- Introducing dental insurance billing systems as a team-focused activity

Individual Assignments:

- Creating a Practice Insurance Plan and Insurance Policy for plans accepted, with methods for tracking and maintaining the insurance processes
- Developing a Practice Financial Plan for overhead control, debt reduction and equity building as well as a Practice Financial Policy for both patients and staff
- Defining tools, resources, and staff responsibilities needed for implementing and maintaining both Plans (Insurance and Financial)

Module 8 Topic: Marketing Plan 101™

Curriculum Focus:

- Presenting sales, marketing, and promotional concepts and theories
- Reviewing contemporary marketing strategies and costs
- Discussing the components of a Marketing Plan
- Identifying the key aspects of target marketing and social media
- Illustrating the purpose of conducting a SWOT Analysis
- Evaluating methodology for tracking marketing efforts

Individual Assignments:

- Creating a Marketing Budget
- Developing a Marketing Plan with Implementation Timeframes

Module 9 Topic: Employment Law and Employer Compliance™

Curriculum Focus:

- Presenting the Federal, State and local employment laws that dentists are required to comply with as employers
- Identifying additional Dental Practice Act regulations and State-specific statutes that impact dental practice management
- Reviewing compliance methodology and strategies as wealth accumulation strategies
- Discussing legal risks, turnover costs, and litigation fees and consequences

Individual Assignments:

- Create the practice's Risk Minimization Strategy
- Develop the practice's Legal Compliance Strategy

Module 10 Topic: The Practice Employee Manual and Your Practice Operating/Clinical Manual™

Curriculum Focus:

- Reviewing current legal issues and trends within dental practices
- Identifying the purpose, need, and importance of an updated Employee Manual and Operating/Clinical Manual

- Illustrating the criteria and requirements of a legally compliant Employee Manual and Operating/Clinical Manual
- Introducing Arbitration and Mediation Clauses as alternative dispute resolution addendums within Employee Manuals
- Discussing the purpose and need for an Operating and Clinical Manual that reflects your practice's specific protocols and procedures

Individual Assignments:

- Creating the Practice Employee Manual and Operating/Clinical Manual
- Developing an implementation and annual review strategy

Module 11 Topic: OSHA, HIPAA, HITECH Act and Omnibus Rules™

Curriculum Focus:

- Reviewing the updates and requirements of OSHA, HIPAA, and the HITECH Act
- Maintaining compliance with documentation systems, education, and annual training
- Addressing the purpose and procedures required for maintaining GHS, SDS, Injury, and Needlestick Logs, as well as Drug Log/Inventory requirements for dentists and dental practices
- Identifying Worker's Compensation issues, ergonomics, and practice safety protocols
- Identifying the key components of the HITECH Act "and Omnibus Rules" that impact practice management processes

Individual Assignment:

- Developing a Training Schedule and Action Plan for OSHA and HIPAA compliance & requirements

Module 12 Topic: Wealth Accumulation and Your Personal Financial Plan™

Curriculum Focus:

- Introducing the time value of money for wealth accumulation
- Addressing barriers to wealth accumulation
- Reviewing retirement planning programs implemented through the practice
- Presenting financial planning, financial planners, and financial brokers
- Quantifying wealth accumulation individually

Individual Assignments:

- Developing a Personal Financial Plan

Module 13 Topic: Planning for Retirement and Practice Transitions™

Curriculum Focus:

- Presenting strategies for retirement
- Evaluating key components that enable retirement
- Discussing the financial principles needed for retirement
- Addressing the methodology for valuing a practice
- Reviewing the legal requirements for releasing patients
- Discussing end of career options

Individual Assignment:

- Develop a Personal Retirement Plan to include the goals for Practice Transitions

REQUIRED MATERIALS

All materials will be made available on the website.

Materials supplied by each enrolled dentist

1. Portable Laptop Computer (Less than one year old for maximum speed) – with the following software stalled.
2. The latest Windows Professional version
3. The latest Microsoft Office -Full Version with MS Word, Excel & PowerPoint version
4. The latest Quickbooks Premier version Software
5. Calculator (Can use cell phone if it contains a sufficient calculator)
6. Textbooks (online or hard copy) will be required purchases by enrolled students at various intervals within the 13 month program. A list will be provided to each enrolled student.
7. Myers-Briggs Personality Testing Fee

Materials supplied by the University of Florida:

1. Access to UF's Online Webcourse
2. All course materials, lectures, active discussion boards, instructions and assignments online
3. Access to video chat and/or phone discussions with the Course Instructor, by appointment, during each paid module
4. Lynda.com tutorials are provided to each enrolled cohort member, at no additional charge, to complete in advance of the course/module start date. Instructions for accessing the Lynda.com tutorials through the UF Webcourse will be provided to each enrolled dentist upon completion of full registration and payment. Dentists who complete the tutorials on MS Office, QuickBooks, and other software to be used, ultimately reduce their homework time dramatically due to the familiarity of the software through Lynda.com. These tutorials should be completed prior to beginning the course, or one month prior to each corresponding module.

SUPPLEMENTARY/ADDITIONAL MATERIALS:

Each enrolled cohort member must have sufficient reliable internet service and speed for use of the UF Webcourse, the 'eCommunity' Discussion Blogs, Skype, IMO, or FaceTime, and email access. Additional material may consist of text readings, case studies, articles, and worksheets that supplement and enhance the topics of each monthly module. These will be located as MS Word documents or hyperlinks inside the UF Webcourse, or will be emailed to the student by the Instructor.

COURSE POLICIES REGARDING GRADES:

Late Work Policy: All work is expected to be turned in on time (prior to the next monthly module) in the appropriate area of this online course. Barring a documented medical emergency, late work is discouraged and negatively impacts both the student and instructor's schedule. This is a dynamic environment and the schedule may change during the semester. Check your email and the course home page for announcements indicating change, at least three times per week. Deliverables will be due no later than one month from their assigned dates.

COURSE POLICIES: TECHNOLOGY AND MEDIA

Email: Email through the Webcourse will be the primary source of communication in this online course between monthly modules. The average response time for email is 24-48 hours during the work week and 48 hours on weekends and holidays. Students will be expected to have daily access to the internet and Webcourse email, since your instructor will be emailing students about assignment updates, additions and changes. All email will be conducted through the UF web course, for ease of tracking.

Discussion Blogs: This course will use online Discussion Boards as an eCommunity platform for networking and discussions. Instructions for account set up are provided within the UF Webcourse. Discussion board postings will be submitted throughout each monthly module by cohort members.

Internet Access: Reliable computer and internet access is critical for the successful completion of this course. It is the student's responsibility to ensure computers and internet access are both reliable. In the event of a technical issue, contact Online Support at <http://helpdesk.ufl.edu/> for assistance.

UF Webcourse: This course includes an extensive online Webcourse and eCommunity; thus, students are encouraged to log on to the Webcourse at least once daily. Dr. Driscoll will provide information that is disseminated via the Webcourse between each module. In the event of a campus wide emergency or campus wide computer failure, you may contact Dr. Driscoll at 407-252-0471.

COURSE POLICIES ON STUDENT EXPECTATIONS:

Attendance: Virtual attendance and engagement during the monthly modules as well as the online coursework is expected. Modules within this program tie-in to each other, however, this program may be taken in an 'a la carte' fashion, with the Course Instructor's approval. Please notify the Course Instructor and registrar if a potential conflict or emergency arises that may impact the online attendance requirements for this course. Full certificates of completion nor CEU's will be provided nor reported until full online attendance requirements and course completion is achieved.

Assignments: Each Module contains assignments which will need to be completed by each enrolled dentist either individually or within a potential team-based environment, in order to receive the course CEUs. These assignments should be considered homework to be completed between the monthly modules, in a timely fashion. Due dates for each month's assignments are listed within the UF Webcourse, where dentists and teams will be submitting their completed Module Assignments. The estimated time for completion of monthly homework assignments is solely dependent on each enrolled dentist's familiarity with the course software, and their individual computer skills. Therefore, dentists are strongly encouraged to complete the Lynda.com software tutorials as soon as possible to increase their knowledge, skills, and familiarity with the computer and course software. **Monthly homework assignments can take between 4-15 hours to complete, depending on the dentist's time management, computer and software skills.** Due to the varying length of time dentists may take to complete these assignments, CEUs earned for each Module will include both virtual attendance and completion of each Module's Assignments. CEU's will be distributed upon successful completion of both virtual attendance and assignments for each monthly Module.

Disability Access: The University of Florida is committed to providing reasonable accommodations for all persons with disabilities. This course is compliant with the standards of the Americans with Disabilities Act. This syllabus is available in alternate formats upon request. Students with disabilities who need accommodations in this course should contact the instructor at the beginning of the semester to discuss needed accommodations.

Academic Conduct Policy: Academic honesty is an expected requirement of all students at the University of Florida. Each student is required to complete all course work on his or her own.

Learning Methodology: This is a course that is structured to foster learning from your peers as well as from your instructor. The face-to-face meetings will incorporate both lecture and interactive, hands-on learning activities. The learning process continues in-between monthly meetings through the participation inside the UF Webcourse, and discussions held within the course Discussion Blogs. Because the online environment is a somewhat self-directed learning environment, it is important that we are all attentive to supporting the learning eCommunity. As members of the learning community, students are encouraged to help everyone grow by contributing materials and comments. You each have much to offer, by your questions, your contributions, and your presence. While you aren't graded on your community-building efforts, experience shows that the learning process is significantly enhanced by this activity. Online discussions are not graded, however, they are an important and integral form of "attendance". Your successful completion of this 13-month program includes your participation (or lack thereof) in online discussions.

ALL DUE DATES WILL ALSO BE POSTED INSIDE THE WEBCOURSE UNDER THE CALENDAR. It is highly recommended that students check the calendar daily and set alarms or reminders for each due date and time. Smart phones or online calendars are great resources for setting such reminders/alarms.

Dr. Annelise Ydstebo Driscoll

Dr. Driscoll is an accomplished educator, administrator, author, researcher, and consultant with more than 20 years' experience in Health Care. As the designer, consultant, project developer, and founding Dental Center Director and Assistant Director of Dental Services at the University of Central Florida's profitable state-of-the-art campus UCF Dental Center; and founding designer and project development consultant on the Florida State University Dental Center, she brings with her an extensive background in oral health and dentistry. Dr. Driscoll has been in the Healthcare field for 20+ years as a Practice Administrator in private, public and corporate practices of different sizes, before transitioning to 10+ years of academic teaching, research, publishing, public speaking, and consultative project development in a health executive capacity. She completed her Executive MBA from the University of Central Florida, College of Business and her PhD in Public Affairs/Healthcare Administration at UCF's College of Health & Public Affairs.

In addition to developing/teaching the Executive Practice Management™ Program curriculum at the University of Florida, College of Dentistry, she is also a Clinical Assistant Professor in the Restorative Dental Sciences department, as well. She taught at the University of Central Florida, College of Health and Public Affairs in the Health Professions/Health Informatics Management Graduate Program for five years. She has also worked collaboratively as an Affiliate Assistant Professor of Research at the University of South Florida, College of Public Health, Community and Family Health Department, collaborating on research on Oral HPV, HPV-Related Cancer, Medical/Dental Provider Disconnects, and the Oral/System Health Connection. *Practice Management Systems*, Dr. Driscoll's personalized consulting firm, specializes in both large-scale dental facility design, build-out and operational projects, as well as one-on-one consulting on Contracts, Practice Legal Compliance, Operating Systems Development, Practice Analyses, and Dental Financial Systems Overhaul for Profit Maximization.

Her research and publication interests are predominantly focused on HPV-Related Oral Cancer, HPV Vaccination Uptake, HPV Risk/Prevention/Barriers/Facilitators, Oral Health Access Issues, Dental Workforce Issues, Practice Management and Health Law, HR issues, Profit Maximization, Systems Optimization, and the Future of the Current Dental Practice Model.

Dr. Driscoll is a published author in both academic, peer-reviewed, and industry journals, textbooks, and dental magazines; nationally and internationally. Additionally, she is an Editorial Reviewer for the *Journal of the American Dental Association*, *the Journal of Public Health Dentistry*, *the Journal of Sexually Transmitted Diseases*, *the Journal of Dental Education*, and *Vaccine Journal*.

With a strong belief in collaborative networks, Dr. Driscoll strives to maximize strengths of academic and industry experts in achieving meaningful, applicable teaching and research that directly impacts the field of dentistry.

ADMISSION INFORMATION

Requirements For Enrollment

The College of Dentistry reserves the right to accept only qualified dentists who meet the criteria with no barriers to academic success as applicants for this postdoctoral program. Each prospective candidate must submit a formal application and complete a telephone interview with the program's Director. If a candidate is absent from one or more sub-courses in a major course he/she may take the sub-course the next time it is offered without penalty and at the prevailing rate for the module at that time. The University of Florida and ADA/CERP require that credit be awarded only for those hours in virtual attendance or for assignments completed. If a candidate has completed only a part of a major course he/she will have a period of three years to complete the component subject area. After that time the entire major course must be retaken and full fees paid. All course work is presented in English only.

Application And Fees

Each Candidate must submit a formal application to the College of Dentistry for acceptance into the program. That application must be approved by the Executive Practice Management Program™ Director before the candidate is permitted to enroll in the Executive Practice Management™ Program. The tuition for the 13-month Executive Practice Management Program™ (182 contact hours) is \$16,087.00. Payment of fees may be handled in one of two ways: The full tuition may be paid in advance, or a non-refundable deposit of \$500 is due within 2 weeks of acceptance of the application into the Program plus the first module payment of \$1,199 is two weeks after deposit due date, followed by twelve interest-free consecutive monthly payments of \$1,199 each which begin 2 weeks prior to each module.

This program has been approved for tuition payment under the Post-911 GI bill – please call the CDE Registrar at 888-550-4590 (or 352-273-8480) for details.

- UF CDP graduated Alumni receive a \$500 discount off the non-refundable deposit.

Cancellation/Refund Policy

There is no refund for individual session fees. Instead, the session fee will be transferred to the next module. If a participant must be absent for a particular module's session, he/she can make that session up with the next year's class at the prevailing rate for the next class's per session fee. It is the responsibility of the participant to notify the course Instructor and registrar if a potential conflict or emergency arises that may impact the online attendance requirements for this course. Continuing Dental Education reserves the right to modify or cancel a course when circumstances warrant. Dates, course content, fees, or faculty will be changed only when unavoidable.

Student Academic Regulations

Withdrawal From and Re-entry Into the Executive Practice Management Program™ for Dentists

Registered continuing education students may request a break in the program and be reinstated within three years without loss of accumulated credit provided that all fees are paid and assignments successfully completed for modules attended and the student is re-registered with the Executive Practice Management™ Program for Dentists. Fees per monthly module session will be assessed at the prevailing rate at time of re-entry.

Graduation

Continuing education students completing the prescribed course of study, upon recommendation of the program director, will be granted a Certificate of Completion of the Executive Practice Management Program™ for Dentists by the University of Florida College of Dentistry, Office of Continuing Dental Education. Individual certificate of CEU's will be presented for attending and successfully completing all of the required online course work for each module by the Instructor.
